

Career Acceleration

TAILOR TO THE NEEDS OF YOUR ORGANIZATION

Career Acceleration is a live, three-hour workshop that helps professionals build a clear, practical approach to reaching their career goals. They will learn how to define purpose, sharpen their story, identify opportunities, and build a career plan, with AI as a thinking partner throughout. Participants will leave with a purpose statement, career narrative, opportunity map, and weekly plan ready to use immediately.

Duration: 3 Hours (single live-virtual session) **Format:** Live-Virtual via Zoom | **Cost:** \$300 /person

IDEAL PARTICIPANTS

Designed for professionals who want a clear, purpose-driven direction and the confidence to pursue it. This includes active job seekers, career changers, and anyone who wants a structured system for turning clarity into a plan.

WHAT PARTICIPANTS GAIN

Participants leave with skills they can immediately apply, including how to:

- ✓ Define a purpose statement that anchors every career decision.
- ✓ Turn scattered experience into a confident career narrative.
- ✓ Build a realistic Opportunity Map of 3–5 target roles using five decision filters.
- ✓ Turn clarity into a weekly plan, tracker, and a stronger resume, cover letter, and LinkedIn presence.
- ✓ Build the habits that keep momentum going without burning out.

THREE-HOUR LEARNING JOURNEY

- 1 **Find Your Purpose**
Define what you're working toward and why, creating your first purpose statement.
- 2 **Tell Your Story**
Turn your purpose into a believable career narrative grounded in experience and obstacles.
- 3 **Define Your Opportunities**
Narrow possibilities into 3–5 realistic target roles using identity, strengths, constraints, purpose, and resonance.
- 4 **Planning and Toolkit**
Turn clarity into action with weekly planning, application tracking, and essential career materials.
- 5 **Maintain Momentum**
Protect your progress by committing to one sustainable habit and sharing it with a partner.

CORE DELIVERABLES

Student Guide

Slides, supporting text, examples, and practical guidance that reinforce learning during the live session.

Capability Guides

Clear summaries that can be referred to after class for reinforcement and recall.

AI Acceleration Guide

Collection of prompts used throughout the course compiled together for easy reference.

* These materials will be bundled in a single, simple deliverable for ease of use.
